

Preliminary Groups Schedule

That Good May Become

a festival of initiative August 10-16, 2023

Working Together (WT) and Creating Together (CT) Groups

The central activity of the Festival is to facilitate the process of bringing together those who seek to share their ongoing work and, in so doing, find new collaborators. To make this possible a number of groups designed to take up this “Working Together” will take place. Those wanting to work together to prepare and present the two closing events for the Festival have the opportunity to do this in the “Creating Together” groups.

The following provides an introduction to these “Working Together” and “Creating Together” groups.

Friday, August 11

- 11:30 am** **WTA1** The Condition of Inner Schooling for the Knowledge of the Human Being
